ANA B772 AT FUKUOKA ON NOV. 29, ENGINE SHUT DOWN IN FLIGHT

News / Airlines

An ANA All Nippon Aurways Boeing 777-200, registration JA712A performing flight NH-264 from **Fukuoka to Tokyo Haneda (Japan)** with 387 people on board, was climbing out of Fukuoka when the crew observed an unusual exhaust gas temperature (EGT) increase on **the left hand engine (PW4077) and shut the engine down.** The aircraft returned to Fukuoka for a safe landing about 20 minutes after departure.

Passengers reported the left hand engine emitted a loud boom and streaks of flame.

The airline reported en unusual EGT rise on the #1 engine prompted the crew to shut the engine down and return to Fukuoka.
