FLEXJET PRAETOR 600 PRIVATE JET TOUR TOUCHES DOWN ON RUNWAYS NATIONWIDE

News / Business aviation

Flexjet announced its 2024 national tour to showcase the Praetor 600, an Embraer super-midsize aircraft and key offering in Flexjet's fleet. As the only fractional provider offering both the Praetor 500 and 600 options in its fleet, Flexjet's mid- and super-mid aircraft fleet is far more capable and comfortable than competing fleets offered within the fractional market including the Citation Latitude and Longitude.

D.J. Hanlon, Flexjet Executive Vice President of Sales commented: "When we added this super-midsize jet to our ultra-modern fleet, we knew we were providing our aircraft Owners with a unique opportunity to level up their travel experience in this category."

Anti-turbulence technology, fly-by-wire controls and spacious baggage capacity ensure reliable and comfortable performance. The aircraft's LXi Cabin Collection™ interiors, noise suppression, roomy cabin, superior wet galley and advanced entertainment and Wi-Fi systems make for an indulgent passenger experience.

The aircraft's cruising altitude of 45,000 feet allows it to fly above commercial traffic, providing

passengers with a seamless travel experience. The Praetor 600's speed tops at 466 knots and has a maximum operating range of 4,018 nautical miles (NM). In addition to its seating capacity of up to 9 passengers, the Praetor 600 offers an expansive 155 cubic-foot luggage compartment, which is accessible during flight, can hold up to 16 pieces of luggage.

By year's end Flexjet will have grown its mid- and super-mid fleet to 177 aircraft, bringing the total fleet size to more than 300. The 2024 deliveries in this category include the Praetor 500 and 600 and the Bombardier Challenger 350 and 3500.
