JETMS COMPLETIONS BECOMES CERTIFIED DESIGN ORGANISATION BY ACQUIRING WAYPOINT AEROTEC

News / Maintenance / Trainings

JETMS Completions has acquired Waypoint Aerotec, a certified Design Organisation. This strategic move expands JETMS Completions' already comprehensive service portfolio, further strengthening its position in the dynamic UK & global aviation market. With this latest acquisition, JETMS Completions will now possess UK CAA Part 21J Approval. This certification is a valuable Add-On to its exciting design capabilities and qualifies the company to provide innovative design solutions to clients around the globe, ensuring a seamless and compliant service for our customers and partners. With this development, JETMS Holdings now possesses the capability for a complete gamut of aircraft approvals.

Furthermore, this newly acquired approval will enable JETMS Completions to offer structural modifications, avionics, and in-flight entertainment system upgrades, as well as streamline and expedite the certification processes, increasing the company's efficiency. Waypoint STC 10073186 enables JETMS completions to offer an Off-The-Shelf solution for all EMBRAER Phenom 300 (EMB-505) Operators & Owners - Replacement of Passenger Seat Cushion Covers and Foams.

Gegams Hanamirjans, Executive Chairman at JETMS Completions, commented: "Along with the recent appointment of Stefan Chevalier as Managing Director, this strategic acquisition is set to strengthen our position as a seasoned, comprehensive provider of top-tier aircraft interior and exterior completion services. With our newfound status as a certified design organisation, we're primed to expand our service portfolio even further, ensuring our customers have access to a diverse range of aircraft interior and exterior solutions, all conveniently available under one roof."

JETMS Completions offers comprehensive cabin interior solutions, such as design, manufacture, or refurbishment and certification of all client requirements for all types of aircraft including commercial, VIP, business jet, and special mission aircraft. The company is part of Avia Solutions Group, the world's largest ACMI provider (Aircraft, Crew, Maintenance, and Insurance), operating a fleet of 192 aircraft in 68 countries worldwide.
