TRU SIMULATION DELIVERS CESSNA CITATION LONGITUDE FFS TO FLIGHTSAFETY INTERNATIONAL

News / Maintenance / Trainings

TRU Simulation announced FAA Level D certification and delivery of a Cessna Citation Longitude Full Flight Simulator for FlightSafety International Columbus, Ohio Learning Center. The new simulator will support FlightSafety in providing quality training services for Textron Aviation's flagship super-midsize Cessna Citation jet.

Jerry Messaris, vice president and general manager, TRU Simulation commented: "At TRU, the team is committed to delivering cutting-edge training tools that enable pilots to achieve their goals. Supplying high-fidelity simulators to FlightSafety aids in expanding access to excellent aviation training for pilots across the globe, and our state-of-the-art technology ensures safe and realistic training experiences."

FlightSafety International and TRU Simulation formed a joint venture in 2019 to better support
