VTS JETS HAS EXTENDED ITS TYPE RATING WITH CL-300/350/850 MODELS

News / Business aviation, Maintenance / Trainings

Vostok Technical Service Jets (VTS Jets) has been granted with EASA approval for the new Bombardier products following the recent positive audit results.

The Bombardier Challenger-300/350/850 models enhanced the already existing Global Series and Cl-604/605 capabilities.

The related amendments to the approvals issued by the other administrations (BDCA, Cayman CAA, Aruba DCA, Qatar CAA) are coming soon.

VTS Jets is the Bombardier business jets maintenance provider located at Vnukovo-3 Airport (Moscow, Russia). VTS Jets is approved in accordance with EASA Part-145 requirements (EASA.145.0303), Qatar CAR (QCAA/FAMO/181), Aruba DCA (DL-ACC-169), Bermuda DCA (BDA/AMO/637) and CAA of the Cayman Islands (194-CAY-AMO-2015).

All the maintenance staff has been trained in Bombardier Training Centers and on Lufthansa Bombardier Aviation Services facility in Berlin. VTS Jets holds the approval certificates for Global Series and Challenger 300/350/604/605/850 line maintenance. Aircraft on Ground (AOG) services are available in all airports in Moscow area (Vnukovo/Domodedovo/Sheremetyevo) and throughout Russia/CIS.
