EXECUJET MRO SERVICES BELGIUM RECEIVES EASA AND FAA APPROVAL FOR FALCON 6X MAINTENANCE

News / Business aviation, Maintenance / Trainings

European Union Aviation Safety Agency and the US Federal Aviation Administration have approved ExecuJet MRO Services Belgium to perform line and heavy maintenance on the Dassault Falcon 6X. In addition, the civil aviation authorities of Bermuda, Aruba and Guernsey have certified ExecuJet MRO Services Belgium to carry out line and heavy maintenance on the Falcon 6X.

The company's Dassault MRO GoTeam approval has also been expanded to include provision of aircraft-on-ground support for the Falcon 6X. This approval is significant as it expands the support network available for Falcon operators, and further strengthens ExecuJet MRO Services Belgium's position as a trusted Dassault owned MRO partner in Europe and beyond. Falcon 6X is Dassault Aviation's newest aircraft in production and a flagship product. With a range of 5,500 nautical miles, the aircraft can fly non-stop from London to destinations across North America, Africa, the Middle East and Asia.

Matthijs Hutsebaut, Regional Vice President for Europe at ExecuJet MRO Services commented: "EASA and FAA are the world's two most internationally recognized civil aviation regulators. This approval is significant as it means we are now internationally certified to do line and heavy maintenance on all in-production Falcon aircraft types. With already more than 30 Falcon 6X business jets operating worldwide, demand for maintenance and support services continues to
