NEW ACADEMY COLLEGE LEARNING INSTITUTE COURSE CERTIFIES CHARTER FLIGHT COORDINATORS

News / Business aviation, Maintenance / Trainings

Academy College Learning Institute launched the Charter Flight Coordinator Course — a two-week, 40-hour intensive online course designed for members of the charter industry, specifically charter-flight followers and non-certified flight operation representatives, to achieve certification as a Charter Flight Coordinator.

The Charter Flight Coordinator Course focuses strategically on the day-to-day aspect of Part 135 operations, covering a multitude of aircraft types, air charter regulatory compliance, and the charter sales process, as well as addressing how to accelerate growth in charter operations.

“We are incredibly excited about the opportunity to provide this course to charter operators,” said Nancy Grazzini-Olson, President of Academy College. “Paired with our aircraft dispatcher experience, we are confident of the value this course will create.”

“Based on industry feedback, we see the need for quality and timely training for charter coordinators to gain an understanding of the full scope and daily demands of this crucial position,” stated NATA Senior Vice President Ryan Waguespack. “As workforce retention and recruitment are top of mind for the aviation business industry, we look forward to the advantages program like these will bring to individuals and businesses.”
