DASSAULT AVIATION APPOINTS EXECUJET HAITE AS AN AUTHORIZED SERVICE CENTRE IN BEIJING

News / Business aviation, Maintenance / Trainings

Dassault Aviation has expanded ExecuJet Haite Aviation Services China's status as an Authorized Service Center for Falcon aircraft, to include their new purpose-built MRO facility at Beijing Daxing International Airport for AOG and Line Maintenance services. It means Dassault Aviation now has an ASC for Beijing, the largest market in China for business aviation. Being an ASC allows ExecuJet Haite to perform warranty work, on behalf of the customer, that is covered by the manufacturer.

ExecuJet Haite 5,000m2 Beijing Daxing MRO facility now offers airframe maintenance, AOG support, and other services on the Falcon 6X, Falcon 7X and Falcon 8X models. The Beijing Daxing facility complements ExecuJet Haite's MRO facility at Tianjin Binhai International Airport, which is also a Dassault Aviation ASC for Falcon aircraft.

ExecuJet Haite's Beijing Daxing and Tianjin maintenance bases are Part 145 maintenance organizations. Both are certified by the Civil Aviation Administration of China, European Aviation Safety Agency, US FAA, Civil Aviation Authority of the Cayman Islands, Bermuda Civil Aviation Authority and Aruba Department of Civil Aviation.

Paul Desgrosseilliers, general manager, ExecuJet Haite, commented: "The expansion of our MRO footprint is one of the key elements for continuous extension of our customer support and services portfolio in the Greater China region. We will continue to make substantial investments in ground support equipment, tooling, and having our engineers trained in France, all in effort to providing superb maintenance support for the Falcon fleet while operating in Tianjin and now Beijing, China."
