BOMBARDIER GLOBAL 8000 MAKES ITS SOUTH AMERICAN DEBUT AT CATARINA AVIATION SHOW IN BRAZIL, JOINS THE EXQUISITE GLOBAL 6500 AND CHALLENGER 3500 ON SITE

News / Business aviation, Manufacturer

Bombardier Global 8000 will be on display at the Catarina Aviation Show in São Paulo, Brazil from May 21-23, marking the tradeshow debut of this incredible business aircraft. Bombardier Global 6500 aircraft and Challenger 3500 business jet will also be on display at the show, revealing their impressive design and performance attributes for clients in the region. Bombardier's sales team will also be on site to meet with customers. Bombardier Global 8000, Global 6500 and Challenger 3500 aircraft provide customers with class-leading luxury, performance and range ideally suited to hot, high, and short airfields. Bombardier's flagship for a new era, the Global 8000 business jet, is the fastest civilian aircraft in the skies with a top speed of Mach 0.95 and a range of 8,000 NM, enabling passengers to fly faster and farther than ever before.

Boasting the lowest cabin altitude in business aviation production at 2,691 ft. while cruising at 41,000 ft., the Global 8000minimizes the physiological stress associated with high altitude travel, helping passengers arrive at their destinations feeling refreshed and ready to perform. With its impressive range, the aircraft can connect travellers from key city pairs, including São Paulo to Perth, São Paulo to Vancouver and São Paulo to Dubai. In addition to its long-range capabilities, low cabin altitude and exceptionally smooth ride, the aircraft remains remarkably agile, with takeoff

and landing performance comparable to that of a light jet. Its advanced wing design featuring unique leading-edge slats enables customers to master up to 30% more airports than its closest rival.

Frank Vento, Vice-President of Sales, U.S. and Latin America, Bombardier commented: “Bombardier’s Global 8000 is at the pinnacle of business aviation today and the Global 6500 and industry-leading Challenger 3500 are proven performers. Being onsite at the Catarina Aviation Show provides Bombardier with the perfect opportunity to showcase the incredible performance and design attributes of these incredible aircraft. Bombardier is uniquely positioned in the Brazilian market, and we are delighted to be showcasing the incredible attributes of these impressive aircraft.”

Bombardier Global 6500 aircraft combines uncompromising style, performance, and innovation to take passengers faster and farther with the smoothest ride possible. With a top speed of Mach 0.90 and range of 6,600 NM, it can connect passengers from key destinations such as São Paulo to Aspen, São Paulo to London and São Paulo to Lagos.

Bombardier Challenger 3500 aircraft stands as the ultimate expression of performance and value in the super-midsize segment, combining advanced technology with exceptional passenger comfort. In 2025, the Challenger 3500 aircraft was the most delivered super mid-size business jet – almost double its next competitor. It boasts a range of 3,400 NM and a top of speed of Mach 0.83, connecting passengers from key locations such as São Paulo to St. Maarten, São Paulo to El Calafate and São Paulo to Dakar.

Customers in the region seeking maintenance on their aircraft will also have further peace of mind with Bombardier’s dedicated services and support network, including the Authorized Service Facility MAGA Aviation at Catarina Airport in São Paulo, which provides line maintenance, Bombardier parts, and tooling for all Global, Challenger, and Learjet aircraft.

Bombardier’s factory-owned 300,000 sq. ft. full-service Miami Opa-Locka Service Centre also offers customers expanded maintenance capabilities, and Bombardier has an extensive network of approximately 100 locations around the world ready to support its customers whenever and wherever their needs arise.
