

AIR FRANCE-KLM AND GOL CELEBRATE A TWO-YEAR PARTNERSHIP

News / Airlines

More than 300,000 passengers carried

Two years have passed since the signing of the partnership agreement between Air France-KLM and GOL Linhas Aéreas Inteligentes.

This agreement has enabled both airlines to optimize and expand their networks to new destinations between Brazil and Europe, with more than 300,000 passengers carried.

With more than 215,000 flights operated since the beginning of the partnership, the network established by the two airlines comprises all European international destinations served by Air France-KLM and GOL's Brazilian destinations.

A strategic partnership which aims to improve the customer experience

Customers of both Air France-KLM and GOL Linhas Aéreas Inteligentes have access to an optimized network: 31 European destinations and 56 Brazilian destinations.

Both airlines offer considerable advantages: a single, simplified booking, the possibility of travelling with two bags weighing up to 32 kg each, and assured baggage tracking with or without a connection. In addition, Air France-KLM customers travelling in La Première, Business and Premium Economy enjoy priority boarding on all GOL flights.
