Air Tahiti Nui announces the debut of its first non-stop service connecting Seattle-Tacoma International Airport (SEA) and Papeete, Tahiti (PPT) with its inaugural flight and arrival to SEA Airport. "Our new route provides a chance for North American travelers to discover the beauty of the 118 Islands of Tahiti, including Tahiti, Bora Bora, Moorea and Rangiroa, which serve as the background to the many wonders to discover, landscapes to explore, and memories to create," said Michel Monvoisin, CEO of Air Tahiti Nui. "In addition to our long-established route from Los Angeles International Airport (LAX), this new gateway to The Islands of Tahiti brings the heart of the South Pacific to more travelers in North America and strengthens Air Tahiti Nui's position as the leading carrier of French Polynesia."
