Thomas Ramdahl, Senior Vice President Network Management of airBaltic, commented: “As we launch the 2024 summer season, airBaltic is excited to introduce 15 new routes from our hubs in Riga, Tallinn, Vilnius, and Tampere, enhancing our network into Central and Southeastern Europe with key destinations such as Chisinau, Ljubljana, Pristina, Skopje, and Tirana. This expansion not only reflects our commitment to growing our service and improving connectivity but also underlines our position as the leading airline in the Baltics. By continuously evaluating passenger demand and market dynamics, we ensure that our offerings meet the evolving needs of travelers, providing them with greater flexibility and convenience for both leisure and business travel. With these new routes, we anticipate a bustling summer filled with opportunities for our passengers to explore new

cultures and experiences.”

Laila Odi?a, Chairperson of the Board of RIX Riga Airport said: “The national airline airBaltic is the most important carrier at RIX Riga Airport, and we are pleased with the constant development of airBaltic at Riga Airport. The news of this summer flight season will be a great addition to the connectivity of Riga and the Baltics with business and leisure destinations across Europe. It is gratifying to see that airBaltic is especially strengthening connections towards the Balkans this year. We also see this as a good opportunity for growth, especially in the area of transit passengers. Moreover, the accession of Romania and Bulgaria to the Schengen area eases the travel rules both for travellers from the Baltics to these countries popular among summer holiday travellers, as well as for Romanian and Bulgarian tourists who want to visit the Baltics.”
