

AIRBALTIC TO MAINTAIN ESSENTIAL CONNECTIVITY FOR THE BALTICS DURING WINTER

News / Airlines

As of October 25, the winter schedule of Latvian airline airBaltic is now in force. During this season, airBaltic plans to connect Riga with 40 destinations across its network, offering flights to major European business hubs and a small selection of leisure and skiing destinations. The planned winter schedule includes such skiing destinations as Kittilä, Munich, Vienna, Salzburg, Zurich, Geneva, Milan and Verona among others.

In addition, if the epidemiological situation will enable such flights, the airline will connect Riga with a selection of sunny leisure destinations such as Larnaca or Rome.

Currently airBaltic performs direct flights from Riga, Tallinn and Vilnius to various European business hubs and popular leisure destinations. A complete schedule of airBaltic flights can be found on the company's homepage at www.airbaltic.com.

The safety and health of our passengers is airBaltic's top priority. airBaltic has introduced strong health measures and the new flight operations follow the recommendations issued by authorities. All passengers on board of airBaltic aircraft are provided with a complimentary basic care kit consisting of a protective face mask and disinfection wipes.

Passengers are strongly suggested to check the travel regulations and airport restrictions on the official websites or with local embassies before travelling. Regulations are changing rapidly and vary per country, therefore always make sure you have the latest information to have a smooth journey.
