

AIRINMAR TO PROVIDE COMPONENT REPAIR FOR EXPRESSJET FLEET OF 300 AIRCRAFT

News / Airlines

Airinmar has signed a three-year agreement with ExpressJet, a subsidiary of SkyWest Inc., to manage component repairs for its fleet of more than 300 regional aircraft.

Airinmar has supported [airlines](#), MROs, OEMs and [military](#) operations for over 25 years through the integration of its proprietary systems, engineering expertise and supply management solutions.

“Airinmar’s services are aligned with ExpressJet’s vision to increase our competitiveness by improving the efficiency of our supply chain,” said Wade Steel, Chief Commercial Officer of SkyWest Inc. “Our partnership with Airinmar will enable us to further reduce costs, accelerate component repair turn times and increase inventory availability to support our demanding fleet schedules.”

“We are excited that ExpressJet has decided to implement Airinmar’s full suite of repair management services,” said Tom Wilson, President, Airinmar. “Our services complement, enhance and integrate seamlessly with our customers’ existing supply chain operations. We are delighted to add ExpressJet, one of the world’s largest regional airlines, to our growing list of

customers, and we look forward to expanding our services further as we integrate with them.”
