flydubai announced the start of flights to Pisa in Italy, becoming the first UAE carrier to operate this route from Dubai. The carrier will also resume its operations to Catania in Sicily growing its network in Italy to three points including Naples.

Flights to Pisa International Airport (PSA) and Catania International Airport (CTA) start on 24 June with a three-times weekly service. Emirates will codeshare on these routes and the flights will operate from Terminal 3 at Dubai International (DXB), offering travellers more seamless connections through Dubai's international aviation hub.

Hamad Obaidalla, Chief Commercial Officer at flydubai, said: “we look forward to the launch of flights to our third point in Italy this summer. Pisa will be a popular destination for travellers from the UAE and the GCC to discover the beauty of the Tuscany region. We have seen healthy growth in passenger numbers as more countries ease travel restrictions and demand for travel returns to pre-pandemic levels. We look forward to an exceptional summer as we continue to add more destinations to our network and increase the frequency of flights on some of our existing routes.”

Pisa is a city in Italy's Tuscany region best known for its iconic Leaning Tower. The region in central Italy is home to some of the world's most recognisable Renaissance art and architecture, including Michelangelo's "David" statue, Botticelli's works in the Uffizi Gallery and the Duomo basilica. Its diverse natural landscape encompasses the rugged Apennine Mountains, the island of Elba's beaches on the Tyrrhenian Sea and famous olive groves and vineyards.

Commenting on the launch of flights, Jeyhun Efendi, Senior Vice President, Commercial Operations and E-commerce at flydubai, said: “flydubai's new three-times weekly service to Pisa, as well as our operations to Catania and Naples, offers passengers from the UAE and the region more options for travel to Europe this summer. Our passengers from Italy will be able to enjoy convenient and direct flights to Dubai throughout the year. Our flights will be operated by our fleet of Boeing 737 MAX aircraft which feature a flatbed in Business Class and additional comfort in Economy Class.”

Passengers travelling on a Boeing 737 MAX aircraft can enjoy more comfort and an enhanced travel experience. The new cabin offering features a flatbed in Business Class and, in addition to the extra space and privacy, passengers can sleep comfortably during their flight. Economy Class offers new RECARO seats, which are designed to optimise space and comfort so passengers can sit back, relax and enjoy their flight.

flydubai's Boeing 737 MAX aircraft also features exceptional inflight entertainment with a full HD,
