KLASJET SIGNS ACMI AGREEMENT WITH AIR CAIRO STRENGTHENING AIR CONNECTIVITY BETWEEN ITALY, UAE AND EGYPT

News / Airlines

KlasJet has signed an agreement with Air Cairo to provide chartered flights this summer. The agreement sees KlasJet operate charter flights for Air Cairo taking holidaymakers from Milan (Italy) and Sharjah (UAE) to Cairo (Egypt). The contract started on 30th May 2025 and will run until 31st October. Air Cairo was founded in 2003 and is partly owned by EgyptAir, Egypt's state-owned national airline. The carrier currently operates more than 30 aircraft, mostly A320s, and its main business focus is charter flights from Europe to Egypt's most popular holiday destinations.

KlasJet became the very first ACMI provider based in an EASA-regulated country working with Air Cairo. Despite the differences in procedures and regulations, KlasJet secured a three-day turnaround from signing the agreement to the ferry flight to Cairo on May 30th.

Vytautas Mikuckas, Head of Wet Lease Department at KlasJet commented: "We have been able to get alignment on all operational and crew-related topics thanks to the flexible and proactive approach of our team – who flew out to Cairo to ensure everything progressed smoothly – and the strong commitment on both sides to clear communication and a partnership-based approach."

The partnership between Air Cairo and KlasJet is helping meet an upsurge in tourism, a sector

that is vital to Egypt. In the period from July to September last year, tourism revenue hit $4.8 billion, a significant uplift for Africa’s second-largest economy.

“We are delighted to be partnering with KlasJet for these charters, and we know they will offer tourists to Egypt an excellent experience that will add to the overall enjoyment of their stay here,” stated Name Surname, Position at Air Cairo.
