

LUFTHANSA AND GERMAN GOVERNMENT TO SUPPORT RESTRUCTURING OF AIRBERLIN

News / Airlines

In order to continue with its restructuring, airberlin has filed a provisional insolvency proceeding in self-administration at the local court of Berlin-Charlottenburg today. Lufthansa is supporting the restructuring efforts of the airline jointly with the German Government.

This also ensures that all aircraft that are currently operated by airberlin under a wet lease agreement for Eurowings and Austrian Airlines will continue operating as before.

Lufthansa is already in negotiations with airberlin to take-over parts of the airberlin Group and is exploring the possibility of hiring additional staff. Lufthansa intends to conclude these negotiations successfully in due time.
