

QATAR AIRWAYS SIGNS CODESHARE AGREEMENT WITH SUN-AIR

News / Airlines

Qatar Airways has signed a **code-share agreement** with Danish carrier **SUN-AIR**, a franchise of British Airways.

From 8th October, 2015 SUN-AIR and Qatar Airways will introduce codeshare flights between Billund, Aalborg and Aarhus in Jutland, the Western part of Denmark, and several European destinations including Oslo, Brussels, Manchester and Munich.

This new cooperation expands the options for Qatar Airways' passengers travelling to and from Denmark, opening up an enhanced range of travel options in addition to Copenhagen. The code-share agreement will lead to excellent new connections between Denmark and a large number of business and leisure destinations around the world including Bali, Singapore, Mumbai, Goa, Kuala Lumpur, Bangkok, Hanoi, Shanghai, Hyderabad and Dhaka.

Qatar Airways Group Chief Executive, His Excellency Mr Akbar Al Baker, said: "SUN-AIR's company values are closely aligned with those of Qatar Airways and we therefore see excellent opportunities with this new code-share agreement, maintaining and enhancing our competitive offer to customers. Qatar Airways is expanding rapidly across the world and the agreement with SUN-AIR further strengthens our position, whilst providing our passengers with an unrivalled global network."

SUN-AIR's Commercial Director, Kristian Tvergaard, said: "We are honoured to be able to add the Qatar Airways code on our flights and in this way offer unique connections for our customers between our three bases in Jutland - Billund, Aarhus and Aalborg - and the Qatar Airways hub in Doha. I am convinced our customers will appreciate the global network offer beyond Doha and not least the excellent inflight service offered by Qatar Airways which is very similar to SUN-AIR's."

SUN-AIR's motto is "Not bigger – but better" and it primarily targets the business traveller segment. The work efficiency and flexibility offered by its 200 employees ensures that passengers receive the highest possible level of quality, service and safety.

Qatar Airways has seen rapid growth in just 18 years of operation and today flies a modern fleet of 166 aircraft to 152 key business and leisure destinations across Europe, the Middle East, Africa, Asia Pacific, North America and South America. At this year's Skytrax Awards, the airline won Airline of the Year, Best Business Class Airline Seat and Best Airline in the Middle East.

SUN-AIR of Scandinavia is an airline based in Billund, Billund Municipality, Denmark. It is a regional scheduled airline operating a franchise service in British Airways colours, which also offers charter flights, air taxi services, specialist aerial work and aircraft brokerage.
