

SAFESKY AIR TRAVEL PRACTICAL GUIDELINES - EPISODE 2 - BOARDING COMPLETED

News / Airlines

Together with SAFESky we continue air travel practical guidelines in order to take the journey of each traveler on a better level. So, make yourself comfortable, have some coffee or tea, take the notes if you need or opt for the PDF download of this article. Frederick Reitz, Managing Director of SAFESky, episode two - boarding completed, what can happen next:

- It is time to board, all you need in your hand is your boarding card or phone, your reading material, or headphones.
- Watch the jetway, it can be wet, uneven, walk carefully.
- Introduce yourself to flight attendants if you have any special training (law enforcement, fireman, medical). They may need your help!
- Put your carryon luggage in the overhead bin on the opposite side of your seat, so you can see it.
- Check around your seat and in the seat back pocket before landing Put away computer, IPAD, chargers and plugs
- Be patient
- Carefully open the overhead bins
- Before pulling your suitcase out of the overhead bin, look around you, is someone under you? Do not pull the suitcase towards your head, but to the side
- Don't flash your expensive electronics or cash while walking through the airport and while getting into your transportation.
- Situational awareness – is it raining at your destination? Snowing? Watch your step leaving the airplane (could be slippery, wet, icy)
- As you leave the airport, do not talk to strangers who approach you for rides, take only authorized providers. Take a photo of the license plate before getting in the transportation. Take a photo of the driver. Send photos to a friend.

?Stay tuned for Episode 3
