

EMIRATES LAUNCHES SECOND-DAILY SERVICE TO BOSTON

News / Airports / Routes

Emirates has launched its **second daily service** from Dubai International Airport (DXB) to **Boston** Logan International Airport (BOS) on Thursday 1st October 2015.

The new service, flight EK239, departs Dubai at 3:20 a.m. and arrives in Boston at 8:55 a.m. The return flight, EK240, will depart at 11:55 a.m. and arrives in Dubai at 8:15 a.m. the following day. The new service will supplement the current EK237 Boeing 777-300ER flight departing Dubai at 8:40 a.m. and landing in Boston at 2:15 p.m. The complementary flight times satisfy a need for customers traveling between the eastern United States to Dubai, as well as for those passengers connecting to Emirates' vast global network of onwards destinations.

The second Boston flight will also be operated with an Emirates' Boeing 777-300ER aircraft with 8 private suites in First class, 42 seats in Business class and 304 seats in Economy class.

"The additional service to Boston not only doubles our capacity to meet demand, but will also provide passengers with the option to fly to new destinations out of Boston Logan International Airport," said Hubert Frach, Emirates divisional senior vice president, commercial operations, west. "The new flight will also create improved connections for passengers travelling from Dhaka, Kolkata, and many destinations throughout Africa, the GCC and Middle East via Dubai and onwards to the U.S."
