

RYANAIR: 3 NEW MANCHESTER WINTER 16 ROUTES TO BERLIN, HAMBURG & NUREMBERG

News / Airports / Routes

Ryanair, Europe’s favourite airline, announced 3 new daily winter services from Manchester to Berlin, Hamburg and Nuremberg, beginning at the start of November.

Ryanair celebrated its new Manchester winter routes by releasing seats for sale from just £19.99 for travel in November. These low fare seats are available for booking on the Ryanair.com website until midnight Tuesday (16 Feb).

Ryanair’s Robin Kiely said:

“Ryanair is pleased to announce 3 new Manchester routes to Berlin, Hamburg and Nuremberg, which will operate daily from the start of November, which are on sale now from www.ryanair.com.

UK customers can look forward to further improvements in the coming months, including new aircraft interiors, new uniforms and more new routes, under our “Always Getting Better” programme, as we continue to offer so much more than just the lowest fares.

To celebrate our 3 new routes from Manchester, we are releasing seats for sale from just £19.99 for travel in November, which are available for booking until midnight Tuesday (16 Feb). Since these amazing low fares will be snapped up quickly, customers should log onto www.ryanair.com and avoid missing out.”

Manchester Airport’s Managing Director, Ken O’Toole said:

“It is hugely positive to see Ryanair expanding its offering from Manchester Airport. Nuremberg is an important business destination for the region and it is pleasing to be able to support companies who operate in that part of the world – or are looking to do so in the future – with a new direct service.

Hamburg and Berlin are also strong business destinations, which will strengthen Ryanair’s offering from Manchester. I am sure all of the three routes will also prove popular with leisure passengers looking for a European city break. We will continue to work to grow our route network and connect the North with key business and leisure destinations across the world.”

Brian Holliday, Managing Director of Siemens Digital Factory UK said:

“Siemens has a significant presence in the North West and we are pleased to hear of this new Manchester Airport to Nuremberg route – a destination that is significant for us and the industrial economy we serve.”
