

A-GROUP LAUNCHED NEW HANGAR CONSTRUCTION IN SHEREMETYEVO

News / Business aviation

By the end of 2016 A-Group plans to set in operation a new, third hangar with 6100 m² floorspace in Sheremetyevo, company reported to BizavNews.

In accordance with the project plan, the hangar shall house up to 8 mid-size business jets. The hangar will be equipped with modern ventilation and air-conditioning systems, providing comfortable environment for the staff and aircrafts.

The hangar provides storage facilities designed for aircraft equipment storage and the offices for operator's staff and technical personnel. The hangar also has special provisions for the helicopter and aircraft supportive equipment.

The hangar operation set up will unite the whole business aviation infrastructure complex. This will bring together Terminal A for servicing international and domestic flights, hangars for all year long aircraft and helicopter maintenance and storage, apron facilities and helipad. The infrastructure complex offers convenient runway access with minimum time for aircraft taxiing, - commented to BizavNews by the company.

A-Group was founded in 2006 with main mission of developing business aviation centers in international airports Sheremetyevo and Pulkovo. Currently A-Group represents solid business

aviation infrastructure complex uniting two capitals – Moscow, airport Sheremetyevo, and St. Petersburg, airport Pulkovo. A-Group now is a complex of business aviation terminals, hangars, apron facilities and own infrastructure for aircraft ground handling services.

A-Group offers highest level of services with professional and individual approach. A-Group priorities are safety, privacy and comfort.
