

BOMBARDIER NEW ABU DHABI SERVICE FACILITY HIGHLIGHTS ONGOING COMMITMENT TO THE REGION AS CUSTOMER SUPPORT FOOTPRINT CONTINUES TO GROW

News / Business aviation, Maintenance / Trainings

Bombardier announced the development of its new service facility at Al Bateen Executive Airport in Abu Dhabi, UAE. This new facility represents a strong partnership with Abu Dhabi Airports, leveraging their expertise and commitment to aviation excellence. New facility, which will relocate from its originally announced location at the Abu Dhabi International Airport in 2022. The new location at the dynamic Al Bateen Executive Airport more effectively aligns with the needs of Bombardier customers. At full capacity, the new OEM service facility is aiming to create approximately 100 aerospace jobs for Emirate of Abu Dhabi. Construction of the new facility is set to commence in the first half of 2025, with completion and operational readiness expected in the second half of 2026.

Paul Sislian, Executive Vice President, Aftermarket Services and Strategy commented: “We are thrilled to announce the new location of our Abu Dhabi Service facility at the dynamic Al Bateen Executive Airport in Abu Dhabi. This location is strategically aligned with all our aftermarket

priorities and perfectly matches the needs of our discerning customer base. Our customers are accustomed to receiving an exceptional service experience wherever they are in the world, and this new facility in this dynamic financial hub will ensure they continue to receive the best service experience possible.”

Elena Sorlini, Managing Director and Chief Executive Officer, Abu Dhabi Airports stated: "We are delighted to welcome Bombardier's new service facility to Al Bateen Executive Airport, building on a strong successful partnership. This move represents a strategic alignment, given the airport's dedicated focus on business aviation and its ability to provide a seamless and efficient experience for Bombardier's clientele. This facility will further affirm Abu Dhabi's position as a leading aviation hub and contribute significantly to the region's economic growth. We are confident this collaboration will drive mutual success for both Bombardier and Abu Dhabi Airports."

Bombardier newly located Abu Dhabi Service Facility of approximately 120,000 sq. ft., will feature a 55,000 sq. ft. hangar, a parts depot, and a complete suite of maintenance services including scheduled and unscheduled heavy maintenance, aircraft modifications and AOG capabilities. New facility will accommodate Bombardier's Global 7500 aircraft, as well as the new Bombardier Global 8000, the company's flagship of a new era, when it enters into service during the second half of 2025. New facility will provide the ultimate service solution for the region and the worldwide customers of Bombardier Learjet, Challenger and Global aircraft families.
