

CIRRUS CELEBRATES 600 VISION JET DELIVERIES

News / Business aviation, Manufacturer

Cirrus announced the delivery of its 600th Vision Jet. As the world's first and only single-engine jet to receive FAA certification, the Vision Jet has redefined personal aviation by combining advanced technology, exceptional safety features and outstanding performance in a light, sleek design. The delivery of the 600th Vision Jet marks a significant achievement not only for Cirrus but for the entire personal aviation industry. Since its introduction in 2016, the Vision Jet has become the best-selling jet in all of general aviation, and this milestone demonstrates the growing demand for innovative, accessible and safe personal aviation solutions. The Vision Jet has opened the doors to a new category of aircraft, enabling a broader range of pilots to transition into jet ownership and elevating the standards for what is possible in personal flight.

Zean Nielsen, CEO of Cirrus commented: "We are proud to deliver the 600th Vision Jet. This achievement not only reflects the commitment from our team, owners and stakeholders but also our relentless dedication to advancing the personal aviation industry. The Vision Jet has brought jet ownership to a broader audience by redefining what is possible in terms of safety, performance and ease of operation. As we look to the future, we remain committed to expanding the boundaries of aviation and making flight more accessible for all."

Personal aviation game-changer

The Vision Jet is a product of Cirrus' dedication to advancing aviation technology and enhancing the flying experience. Equipped with the revolutionary Cirrus Airframe Parachute System and Safe Return Emergency Autoland, the Vision Jet provides an unparalleled level of safety, giving pilots the confidence to fly with a greater sense of security. Additionally, its advanced avionics suite, the Perspective Touch+, offers intuitive flight management capabilities that simplify complex flying tasks and add several layers of redundant safety systems, making jet ownership approachable and simple to fly.

Vision Jet ownership

Cirrus offers turnkey Vision Jet ownership with a comprehensive, hassle-free solution for prospective owners, combining the freedom of personal aviation with exceptional support and service. Through Cirrus, the company offers a total ownership solution with financing, insurance, flight training, aircraft sales and management, service and more. This ecosystem ensures that owners can focus on flying without the complexities of navigating aircraft management. This ecosystem is extended through Cirrus' trusted Authorized Network, which includes a dedicated team of experts who provide flight training and offer aircraft services and maintenance around the world. This turnkey approach aims to simplify the aircraft ownership experience by offering transparency, personalized attention and an integrated support system. With the Vision Jet being renowned for its innovative design and safety features, Cirrus ensures that owners enjoy a seamless, reliable and enjoyable flying experience.
