

DIFFERENCE IN THE MIDDLE EAST - GULFSTREAM G700 AND G500 AT DUBAI AIRSHOW

News / Business aviation, Manufacturer

Gulfstream Aerospace will exhibit two of its next-generation business jets at the Dubai Airshow: the ultralong-range Gulfstream G700 and the class-leading Gulfstream G500. Gulfstream recently announced the G700 range has increased to 7,750 nautical miles/14,353 kilometers at Mach 0.85 or 6,650 nm/12,316 km at Mach 0.90, gaining 250 nm/463 km at both speeds over original projections. The G700's maximum operating speed has also increased to Mach 0.935 from Mach 0.925, giving it the highest speed in the Gulfstream fleet.

Scott Neal, senior vice president, Worldwide Sales, Gulfstream, commented: "Gulfstream has a longstanding history in the Middle East and surrounding regions. Recently, we announced a host of increased capabilities across the fleet, and we look forward to meeting with customers and guests at the Dubai Airshow to showcase The Gulfstream Difference with two of these aircraft, firsthand."

Built for performance and efficiency, the G500 holds nearly 60 city-pair speed records and can fly 5,300 nm/9,816 km at Mach 0.85 and 4,500 nm/8,334 km at Mach 0.90. It was the first aircraft

certified to use enhanced vision to land and was recently certified for steep approach by the Federal Aviation Administration, unlocking access to even more destinations worldwide.
