

EVFLY ANNOUNCES ITS PARTNERSHIP WITH AIR CARGO TRADER DUBAI FOR AN ENHANCED COLLABORATION

News / Business aviation

EVFLY partners with Air Cargo Trader LLC. The terms of our partnership agreement are to give ACT the opportunity to do the marketing, sales and representation of EVFLY for the United Arab Emirates, East Africa and India.

Based on long-standing agreement and past collaborations, it was an obvious choice to work with ACT to expand EVFLY's activities worldwide. There are many advantages to working together in a partnership because of their expertise and knowledge, and it will also give more business opportunities, and there are many. Parties collectively desire to work and collaborate together to strengthen their synergy for the commercial and operational development of EVFLY for the United Arab Emirates, India, and East Africa.

ACT was founded in 2004 and launched their [GSSA](#) and [Air Cargo Charter](#) brokerage services from Dubai, determined to provide a cost-effective way for airlines and forwarders to expand their business and presence in these fast growing markets. This client-centered approach continues to guide our present day relationships with our airline and forwarder clients.

Their highly experienced team has been providing proactive and professional air cargo management services. They adhere to the highest performance standards and provide airline customers with a full range of air cargo sales, services, management and customized solutions at a competitive price.
