

EXECUJET'S BRUSSELS FBO BECOMES FIRST IS-BAH ACCREDITED FACILITY IN BELGIUM

News / Business aviation

ExecuJet has seen its new Brussels FBO gain IS-BAH accreditation, making it the first FBO facility in Belgium to do so.

The Brussels FBO, managed by ExecuJet since December 2016, is based at Brussels International Airport, 6.5nm north-east of the city centre. It offers first class facilities and operations including VVIP lounges with exceptional views of the runway, three well-equipped meeting rooms with free Wi-Fi and full crew facilities including a pilot's lounge and two private hangars.

An-Céline Claes, ExecuJet Brussels FBO manager, says: "Our IS-BAH accreditation is recognition and reward for all the hard work that has been put into the Brussels FBO after just two months of ExecuJet ownership. As a business aviation operator with a global presence, we work hard to ensure that all of our facilities are of the same high standards. We are delighted to be the first facility to achieve IS-BAH status in Belgium, propelling ExecuJet and the Luxaviation Group to another level in the region. Our above-and-beyond services include presidential and VIP flight coordination, customs and immigration arrangements, luxury private lounges and top-of-the-range

meeting and conference facilities.”

ExecuJet’s Brussels FBO has a team of 24 staff members, made up of 15 ramp staff and nine handling agents. The two hangars constitute a space of more than 5,000 sqm and are built to the highest quality standards available.
