

FRASCA TO PROVIDE EC135 SIMULATOR FOR TKK IN TOKYO

News / Business aviation, Maintenance / Trainings

Frasca International Inc. has received an order for a Level 5 flight training device (FTD) for the Airbus Helicopters EC135 from Tokyo Aircraft Instrument Co., Ltd. (TKK). The FTD will feature a three-channel flat screen visual system, single pilot instrumentation and controls, Garmin GPS and electric control loading.

TKK is a repeat customer of Frasca's, currently using a model 342 helicopter FTD built in 1995 and a model 142 twin-engine FTD built in 1991.
