

HONDAJET ELITE II TO DEBUT AT EAA AIRVENTURE OSHKOSH 2023

News / Business aviation, Manufacturer

Honda Aircraft Company will display the HondaJet Elite II at the 2023 EAA AirVenture Oshkosh, marking its inaugural showcase at a public airshow in the United States. The latest HondaJet Elite II, along with a selection of Honda products, will be on display throughout the airshow. HondaJet Elite II takes performance and comfort in its category to the next level. With an extended range of up to 1,547 nautical miles, the aircraft bolsters its position as the most fuel-efficient jet that flies farther than any other aircraft in its class and with lower carbon emissions. The integration of ground spoilers optimizes takeoff and landing field performance, further advancing operational safety. The HondaJet Elite II has received type certification from the U.S. FAA and EASA. The global fleet of HondaJet has exceeded 180,000 flight hours and grown to 230 aircraft worldwide.

Honda Aircraft Company Vice President of Sales Peter Kriegler, commented: "Building on Honda's heritage of revolutionizing mobility through technological advancement, the HondaJet Elite II redefines what it means to be a very light jet. Honda Aircraft Company will continue the unwavering commitment to pushing boundaries in aviation. We invite everyone to join us and witness the future of Honda's aviation excellence."

In addition to the HondaJet Elite II, visitors are invited to explore a diverse range of Honda products, spanning the latest powersports, marine, and automotive lineups. Furthermore, the exhibition will feature the Jett Lawrence HR CFR250F 2022 Championship Bike on display. Honda Aircraft Company will proudly present its largest display of Honda products in history at this year's EAA AirVenture.

Honda Aircraft Company will once again utilize the Sustainable Aviation Fuel Book and Claim Program for its ferry flights to and from EAA AirVenture to promote the deployment of SAF and support the industry's commitment to carbon neutrality. Honda Aircraft Company will serve as the presenting sponsor of EAA's GirlVenture Camp for the sixth time to provide opportunities for females to network with pilots and industry professionals while attending aviation-focused workshops.
