

LATEST JEWEL IN BOMBARDIER WORLDWIDE SERVICES AND SUPPORT EXPANSION - MIAMI-OPA LOCKA SERVICE CENTRE

News / Business aviation, Maintenance / Trainings

Bombardier will officially inaugurate its newest, state-of-the-art service centre in the U.S., located at the Miami-Opa Locka Executive Airport (OPF) in Miami-Dade County, Florida. Bombardier’s Leadership team, customers, VIP guests and members of the media will be invited to attend the ceremony on Oct. 31, 2022, in Miami.

Once fully operational, the new 300,000 square foot facility will more than quadruple Bombardier’s current maintenance footprint in Florida and allow the company to transfer its service centre operations from Fort Lauderdale to the new one-of-a-kind customer service centre at Miami-Opa Locka Executive Airport (OPF), located close to Miami’s bustling business district.

Jean-Christophe Gallagher, Executive Vice President, Services and Support, and Corporate Strategy, Bombardier., commented: “The Miami Opa-Locka Service Centre brings essential, specialized services for our customers, enabling us to continue to deliver the service excellence they have come to expect from Bombardier. Our new facility in Miami will serve as an important

gateway for our U.S. based and Latin American customers and will provide significant benefits, including improved aircraft turnarounds, greater convenience and OEM peace of mind to Bombardier's growing customer base here."

The new facility will be fully equipped to perform extensive and complete full-service scheduled and unscheduled heavy maintenance, including paint enhancement services, to help reduce aircraft downtime. It will be fully equipped to perform scheduled and unscheduled maintenance, aircraft modifications, avionics installations, and Aircraft on Ground Support (AOG) for Bombardier's business aircraft fleet of Learjet, Challenger, and Global aircraft.

Bombardier is also currently hiring additional maintenance technicians across its entire service network to support its recent expansions. Technicians will receive Bombardier's Type Training Course for Mechanical and Avionics certification to provide maintenance services at all 10 Bombardier's service centres worldwide, including its newly expanded facilities in London Biggin Hill and Singapore, as well as its new facility in Melbourne, Australia. Bombardier's Service Centre Network currently has openings for a variety of technical and professional roles. For more information and to apply, visit careers.bombardier.com.

The new Miami-Opa Locka Service Centre aptly illustrates Bombardier's comprehensive global customer service commitment to provide the best customer service experience in business aviation today. With its recent service centre expansions in Singapore, London Biggin Hill, and new facilities both in Miami and in Melbourne, Australia, Bombardier has added close to one million sq. ft. of new service capacity to its worldwide aftermarket network.

23 OCTOBER 2022
