METROJET COMPLETES THE FIRST HONG KONG G650 8C INSPECTION

News / Business aviation, Maintenance / Trainings

MRO station of Hong Kog based Metrojet Limited recently completed an 8C inspection on a Gulfstream G650 aircraft. The check was the first of its kind performed in Hong Kong. The team of professional engineers from the Metrojet HK MRO conducted more than a hundred different maintenance tasks from nose to tail on the managed aircraft. Performing an event such as a heavy 8C inspection requires all the maintenance facility, tooling, and engineering skills to be up to the highest international standards.

Metrojet's Managing Director, MRO, Mr Dave Yip commented: "This check is a milestone event for the Metrojet HK MRO. Our engineering team always strives to enhance their capabilities, provides a quality product and aims to deliver extensive and on-schedule inspection services to our customers at a competitive price. Building upon our successful first G650 8C inspection, we are delighted to have received a second 8C inspection event from a third-party operator."

Established in 1997, Metrojet, as part of the Kadoorie Group, pioneered business aviation services in Hong Kong and remains one of the foremost safety and customer-focussed business jet operators and maintenance providers in the Asia Pacific region. The company provides all-
