

PHENIX JET CAYMAN (HONG KONG) SETS ADDITIONAL NEW WORLD SPEED RECORD WITH BOMBARDIER GLOBAL 7500

News / Business aviation

Phenix Jet Cayman (Hong Kong) announced the establishment of a new world speed record using its Bombardier Global 7500, achieving a remarkable flight time of just 8 hours and 15 minutes between Tokyo and Los Angeles. This impressive achievement further showcases the exceptional performance capabilities of the Global 7500 and the operational excellence of the Phenix Jet teams. In 2024 alone, Phenix Jet Cayman has set seven world speed records on the following city pairs and times:

1. March 6, 2024: Phoenix to Paris - 8 hours and 30 minutes
2. April 2, 2024: Los Angeles to Tokyo - 10 hours and 28 minutes
3. April 4, 2024: Tokyo to Los Angeles - 8 hours and 15 minutes
4. April 9, 2024: San Jose to Tokyo - 9 hours and 58 minutes
5. April 19, 2024: New York to London - 5 hours and 53 minutes

6. April 23, 2024: London to New York - 6 hours and 40 minutes
7. April 30, 2024: San Francisco to Tokyo - 9 hours and 53 minutes

These seven records set aboard the Global 7500 since the start of 2024 are a testament to Phenix Jet's and Bombardier's commitment to excellence in the business aviation sector. The highly traveled route between Tokyo and Los Angeles is a preferred corridor for private jet clients and charter passengers, who are drawn by the thriving business landscape, vibrant cultural scene, and the stunning ambiances of both cities.

Andrew Svoboda CEO of Phenix Jet Cayman, commented: "We are thrilled to have set these remarkable world speed records, showcasing the unparalleled capabilities of the dedicated Phenix Jet Cayman operations team and the remarkable Bombardier Global 7500. These achievements underscore our commitment to providing our clients with exceptional service and groundbreaking experiences. We are thankful for the collaboration with Bombardier and this amazing G7500 aircraft in delivering the ultimate comfort and most efficient travel experience possible in the world today."

Emmanuel Bornand, Vice President, International Sales, Bombardier stated: "With the Bombardier Global 7500 aircraft, customers don't ever have to compromise between opting for outstanding speed or top field performance. This incredible aircraft simply offers both. Thanks to the design excellence of its sophisticated Smooth Flow Wing, the Global 7500 delivers the best of two opposite worlds: high cruise speed with the ability to operate from very short and challenging runways to always be closer to destinations regardless of weather conditions."

Phenix Jet has been recognized as the best Charter Operator and the Operator with the Largest Charter Fleet in Asia by the Asian Business Aviation Association (AsBAA) and Asian Sky Group respectively, highlighting its prominence and reputation in the industry. With its remarkable steep approach capabilities, the Global 7500 is the largest business aircraft to access London City Airport and Gstaad Saanen in the Swiss Alps, providing a testament to the short-field performance and capabilities of this aircraft – as well as its ability to operate at high altitudes and hot temperatures.
