

TAG AVIATION FORMS ALLIANCE WITH BROMMA BUSINESS JET

News / Business aviation

Farnborough, UK-based **TAG Aviation** formed an alliance with Swedish operator **Bromma Business Jet**, under which TAG Aviation Europe is the exclusive air charter sales agent for Bromma's two Dassault Falcon 7Xs. The arrangement brings to six the number of Falcon 7Xs available for charter in Europe.

"We have already performed many long-range charters on these aircraft and through this exciting collaboration we are looking forward to further increasing our availability for our customers," said TAG Aviation UK charter sales manager Mark Christie. "Both aircraft are able to fly to the U.S. under the visa waiver program."

TAG Aviation manages a fleet of more than 120 aircraft, with approximately 50 available for charter, including 16 ultra-long-range jets.
