THE JET CENTRE AT LONDON CITY AIRPORT RECEIVES IS-BAH AWARD FOR QUALITY OF HANDLING

News / Business aviation

The Jet Centre at London City Airport is proud to be the latest recipient of the IS-BAH award for quality of handling.

London City Airport provides access for business aviation from its home airport location which is only four miles from Canary Wharf, seven miles from The City and nine miles from Mayfair.

London City Airport has approvals for most major manufactures with the Global 6000, Falcon 7X, Embraer 550 and Phenom 300 all regular visitors. Again full services are available for passengers, aircrew and aircraft.

London City Airport is also contracted to provide Northolt's premier passenger service at RAF Northolt Aerodrome providing the service for Northolt's VIP customers using the airfield as a gateway to London for business aviation.

The premier passenger experience provided by London City Airport ensures full services are available to business aviation passengers including aircraft catering and limousine service plus full services for aircraft support.

Northolt Aerodrome is the closest airfield to London's West End, being only 10 miles from Kensington with access to Knightsbridge, Mayfair and Piccadilly only 30 minutes by road.
