

TYROLEAN JET SERVICES - OLDEST IN EUROPE AND LARGEST IN AUSTRIA

News / Business aviation

Tyrolean Jet Services is on the market since 1978. In the beginning it was a Swarovski corporate flight department, which later became an independent business structure.

For a charter flight there are many options to choose from: two ACJ319, one ACJ318 ER, Bombardier Global Express, Gulfstream G550, Cessna Citation VII and Beechcraft King Air 200GT. A few more aircraft are managed by the operator, including the flagship Gulfstream G650.

Except impressive fleet, company has own business lounge, still decorated in Swarovski style, own catering factory, which is really famous in Austria and a maintenance hangar for business jets.

TJS base airport is Innsbruck (Innsbruck Kranebitten Airport).

There is no full official FBO, but passengers of **Tyrolean Jet Services** are served in its own FBO , provided with Exclusive VIP-services, including own Mercedes Benz transfer fleet.

"Our philosophy makes us different comparing to our colleagues. We are quite open, if you want – humane in doing business do business. All of the company's customers are respectable people, and our reputation - the trump card of the company. I think that our main advantage is our staff, as the management is a key factor. I will not reveal a big secret, crises comes and goes, we are looking forward to a positive and bright future", - *the head of the Tyrolean Jet Services Martin Lehner.*
