

COLLINS DEBUTS PRO LINE FUSION AT HELITECH

News / Events / Festivals, Manufacturer

Rockwell **Collins** displayed a Pro **Line Fusion** avionics system demonstrator for helicopter cockpits for the first time the **Helitech** International Helicopter Expo and Conference in London.

The Helitech debut follows the system's commercial launch earlier this year. Airbus Helicopters and Vector Aerospace will develop and market Pro Line Fusion as a cockpit upgrade. All Airbus Helicopters platforms are candidates for the retrofit under the agreement signed with Collins.

Pro Line Fusion enters the helicopter market featuring touch-screen controls and a modern graphical interface, with mission-specific operational profiles, including offshore platform approaches, hover in place, extended search and rescue patterns and others, Collins says.
