AJW GROUP EXPANDS INTO A350 SUPPORT MARKET

News / Maintenance / Trainings

A**JW Group announced its entry into Airbus 350 support market with the acquisition of a significant package of spare parts. The package of over 2,500 components marks a strategic move for AJW Group, positioning the company to provide support to A350 operators and airlines worldwide. The inventory for the new generation long-haul aircraft is located in hubs across Europe and North America. By strategically positioning these spare parts, AJW Group is poised to provide unparalleled service ensuring efficient maintenance operations across its existing and expanding global A350 customer base.**

Christopher Whiteside, Chairman at AJW Group, commented:"This acquisition represents a significant milestone for AJW Group. We are delighted to expand our support offerings to include the A350, one of the most advanced and efficient aircraft in the market. The A350's fuel efficiency, reduced emissions, and low noise footprint perfectly align with our commitment to sustainability and eco-friendly practices. The investment in this comprehensive package of spare parts underscores our dedication to providing world-class support solutions and our business strategy focus on supporting the latest and most sustainable aircraft types."

The company vast network of warehouses and logistics capabilities will enable quick and efficient
