

AVIONICS 2000 NAMED TECNAM P2012 SERVICE CENTRE

News / Maintenance / Trainings, Manufacturer

Avionics 2000 was appointed as an official Tecnam P2012 Service Centre, reinforcing its commitment to excellence in avionics and aircraft support across Australia. This development builds on the 30-year partnership between Avionics 2000 and Hallmarc Aviation, official Tecnam dealer, both based at Essendon Fields, Melbourne's premier business aviation airfield. Together, they offer Tecnam operators a seamless and trusted support network backed by decades of experience and collaboration. This appointment marks a significant step forward in expanding Tecnam's support network in Australia, ensuring local operators have access to factory-authorized service and support.?

Francesco Sferra, Tecnam P2012 - Special Mission Platforms Sales & Business Development Manager stated: "The appointment of Avionics 2000 as Tecnam P2012 official service center is a further step in consolidating the global footprint of the P2012 aircraft series and more specifically in Australia. Tecnam customers will benefit from the service center expertise and support as well as

local availability of parts".

Michael Kus, Director at Avionics 2000 commented: "We're honoured to be appointed as a Tecnam P2012 Service Centre. Our long-standing relationship with Hallmarc Aviation has always been built on shared values of quality, safety, and customer care."

Anna Mant, Business Manager at Avionics 2000, said: "Avionics 2000 provides a comprehensive suite of services including MRO (Maintenance, Repair and Overhaul), instrument repairs and calibration, electrical and radio systems, custom avionics upgrades, special mission platform integration, R&D, and more. This appointment allows us to bring our full capabilities to Tecnam operators, ensuring they receive the highest level of technical support and innovation."

Michael Loccisano, CEO of Hallmarc Aviation, welcomed the announcement, stating: "Hallmarc Aviation has worked closely with Avionics 2000 for over three decades. This new chapter with Tecnam reflects our joint commitment to providing the highest standard of service to the aviation community. This appointment further strengthens our commitment to customers across Australia, particularly in Victoria and Tasmania. Combined with in-country technical support and parts supply, Avionics 2000 brings a wealth of experience and capability to support our growing customer base for the Tecnam P2012 Traveller and STOL aircraft."
