

EMBRAER OFFERS SCHOLARSHIPS FOR ITS MASTER OF SCIENCE IN AERONAUTICAL ENGINEERING PROGRAM

News / Maintenance / Trainings

Registration is now open for the 33rd edition of [Embraer's Master of Science in Aeronautical Engineering Program](https://embraer.com/pee), a professional specialization for career acceleration of engineers who desire to deepen their knowledge in the aerospace sector in Brazil. The course is carried out in partnership with the Technological Institute of Aeronautics (ITA). There are 45 vacancies available, and registration will remain open until September 22 via [this link: https://embraer.com/pee](https://embraer.com/pee). The program lasts 18 months, and during this period, students will receive scholarship payments in the amount of R\$ 5,000.00 monthly with a 20% readjustment in the second year, among other benefits.

The announcement of selected candidates is scheduled for December, with classes set to begin in February 2025.

Andreza Alberto, Vice President of People, ESG and Corporate Communications at Embraer commented: "The investments we make in the training and development of people are hallmark traits of Embraer, which celebrates its 55th anniversary this August. The Master of Science in Aeronautical Engineering Program is one of the greatest examples of this strategy and a reference

in the aeronautical sector.”

The course was created in 2001 and since then, more than 1,700 professionals have attended. Embraer's average recruitment rate of participants reaches 96%.

The process admits people who graduated in Engineering in 2022 or 2023, or those who will graduate in 2024 in the following modalities: Aeronautical or Aerospace, Environmental, Automotive, Civil, Computing, Control and Automation, Electrical, Electronics, Energy, Physics, Manufacturing, Maintenance Modalities, Materials, Mechanics, Mechatronics, Metallurgy, Mines, Naval, Nuclear, Petroleum, Production, Chemistry, Robotics, Systems, Software and Telecommunications and Transport. Applicants must also possess advanced proficiency in English.

The selection is carried out remotely, but candidates must be available to live in São José dos Campos (SP), Brazil, as classes and related activities take place in person at Embraer's headquarters and ITA.

All training is provided by Embraer professionals, ITA professors, and consultants, with the right to a professional master's degree in Aeronautical Engineering, recognized by CAPES / Ministry of Education from Brazil.

22 AUGUST 2024
