

HANGAR IN KAUNAS - JETMS EXPANDS INTO COMMERCIAL AVIATION

News / Maintenance / Trainings

JETMS Holdings is broadening its services portfolio. Building on extensive previous experience in the aviation industry, the company has now decided to extend its solutions to commercial aviation, with a primary focus on interior solutions. To facilitate this expansion, JETMS Holdings is opening a new hangar space in Kaunas, Lithuania, to ensure the seamless execution of its enhanced capabilities.

Gegams Hanamirjans, the Chairman of JETMS Holdings, commented: “We are thrilled to announce this expansion, which brings new valuable business opportunities for our company. The integration of this new 7000 sq. m. interior factory will enhance our efficiency in the supply chain of high-quality services and goods. We have brought together a team of commercial aviation experts with over 30 years of total experience, therefore we’re entering this market with confidence and industry know-how. Over the years we managed to gather an incredible team of dedicated professionals with a broad range of expertise in performing aircraft maintenance, interior and exterior modifications, and manufacturing aircraft cabin components. Over 350 people work to offer our clients a seamless one-stop-shop experience. ”

JETMS Holdings' newest hangar space is a state-of-the-art facility located in Kaunas, with the

company's previous facilities situated in Vilnius, Lithuania, and London, United Kingdom. In total, the company owns 14,500 sq. m. of modern hangar space.

JETMS Holdings is a family member of Avia Solutions Group, the leading aviation business group and the largest global ACMI (aircraft, crew, maintenance, and insurance) provider with a fleet of 173 aircraft. The Group also provides various aviation services such as MRO, pilots and crew trainings, ground handling and other interconnected solutions.
