

JETSUPPORT BV RECEIVES FALCON 900EX EASY MAINTENANCE APPROVAL

News / Business aviation, Maintenance / Trainings

JetSupport BV has extended its 145 approved maintenance organization approval for the Falcon 900EX EASy series.

JetSupport's MRO is able to provide its activities with this approval for all the Falcon 900 series next to the Falcon 50EX, 2000 series and 7X series.

JetSupport based in Amsterdam, The Netherlands, has for over 14 years been the independent provider of MRO services and support solutions for business aviation, special purpose aircraft and commuter aircraft, with a focus on flexibility, transparency and a personal touch.

JetSupport's line and base maintenance capability ranges from Cessna Citation, Dassault Falcon, Gulfstream and Dornier aircraft. The aircraft and component services are provided with FAA/EASA/TCCA/VP-C approvals and a capability with over 4,500 sqm of facilities such as hangar space, offices and lounge.
