

MONARCH AIRCRAFT ENGINEERING LIMITED: LA COMPAGNIE EXTENDS AGREEMENT

News / Maintenance / Trainings

Monarch Aircraft Engineering Limited, the engineering division of The Monarch Group, has extended its agreement with La Compagnie to include airframe heavy maintenance.

Under this extended agreement, MAEL will perform a C Check on the Boeing 757-200 ER at its maintenance facility at London Luton Airport.

MAEL currently supports La Compagnie's transatlantic operation with a full suite of line maintenance services at London Luton Airport. La Compagnie operate an All Business Class Boeing 757-200 ER on this route.

Neil Kirby, Sales Manager at Monarch Aircraft Engineering, said: "It is with great pleasure that we can add La Compagnie to our heavy maintenance portfolio and provide them with additional MRO services."

Yann Poudoulec, Director General at La Compagnie, said: "Whilst continuing to receive excellent line maintenance services from Monarch Aircraft Engineering coupled with their location at London

Luton makes them the perfect MRO provider for our heavy maintenance requirements.”
