

TOTAL COMPONENT SUPPORT FOR AIR SERBIA

News / Airlines, Maintenance / Trainings

Air Serbia, the national airline of the Republic of Serbia, and Lufthansa Technik have signed a minimum five-year contract to provide Total Component Support for their current and future Airbus A320ceo family fleet. The contract includes comprehensive Maintenance, Repair & Overhaul services as well as spare parts pooling and homebase services for the required components in Belgrade, Serbia, starting in January 2024.

Jiri Marek, CEO of Air Serbia, commented: "We have ambitious goals for our airline, and if we look toward the end of the next decade, our airline could have more than 50 aircraft. This requires a reliable partner that supports us with the best possible services - also at our home base in Belgrade. The partnership with Lufthansa Technik will therefore contribute to the operational excellence for Air Serbia."

Kai-Stefan Roepke, Senior Vice President Corporate Sales EMEA at Lufthansa Technik, added: "We are very pleased to be selected by Air Serbia as their preferred partner for the component support of their Airbus A320ceo family fleet. Our modern component services offer excellent quality and will enable our customer Air Serbia to achieve top performance."

Lufthansa Technik has been supporting Air Serbia with Landing Gear and other Services for its

Airbus A320 fleet since 2020.
