

VIP COMPLETIONS AND ARRCC UNVEIL UNIQUELY REFURBISHED DASSAULT FALCON 7X

News / Business aviation, Maintenance / Trainings

VIP Completions unveiled the spectacular interior of a completely refurbished Dassault Falcon 7X. Acquisition of this aircraft was brokered by VIP Completions' sister company SmartJets, a leading turnkey aircraft dealer-broker. This project is exceptional because it redefines the boundaries of aircraft interior design. For example, custom dynamic LED accent lights are seamlessly integrated into the headliner; cabin bulkheads have been covered in a sand-blasted bronze mirror finish that creates a mood of modern opulent comfort; and paneling has been trimmed with solid white oak fluting custom-made to match the finest home furnishings.

Ben Shirazi, President, VIP Completions and President, SmartJets commented: "Our client, a passionate and driven fintech entrepreneur, wanted to push the envelope in terms of what an aircraft refurbishment could accomplish. The results are totally unprecedented on any business jet. For us, this was a true end-to-end project. Our SmartJets team identified and acquired the optimal aircraft. Then, the talented team at ARRCC – having also completed multiple projects for this client – delivered the final design. We incorporated the custom exterior paint work in parallel to the interior work. Finally, our VIP Completions team made the design into a tangible reality – within a

very aggressive 10-week timeline. Working together, we have delivered an aircraft interior of unique beauty and refinement.”

Jon Case, Director and Designer, ARRCC said: “Our team is so grateful to have collaborated alongside VIP Completions and SmartJets to create an airborne experience that we hope will set the standard for jet interior design in the future. The client had a strong sense of what he wanted; timeless, contemporary, glam but neutral, echoing the same design brief of his homes through bespoke fittings to custom-designed furniture.”

Offering exceptional levels of luxury, comfort and the convenience of latest-generation technologies, this aircraft comfortably seats 16 passengers.

Floor plan features:

- Three principal cabin areas: forward main lounge with club seating, mid-cabin conference/dining area and aft stateroom with dual divans
- Large forward galley
- Forward crew lavatory and aft VIP lavatory

Additional design elements:

- Luxurious custom-designed seats throughout the cabin upholstered with contrasting premium Garrett leathers and intricate diamond pattern stitchwork
- Stateroom divans upholstered in premium Garrett leathers with real suede inserts on top and bottom cushions
- New stone countertops
- Dado panels covered in matching white oak natural blonde veneer, accented on select surfaces with black pinstripe design

Cabin management system and in-flight entertainment highlights:

- GOGO L5 internet and Wi-Fi
- Kaleidescape media server
- New forward and aft HD monitors
- Alto audio system
- Custom CMS with individual touch panels and ability to stream content from any passenger device to any screen in the cabin
