

CATHAY PACIFIC AIRWAYS BECOMES NEW OPERATOR OF THE A350 XWB

News / Airlines, Manufacturer

Cathay Pacific Airways has become the sixth airline to operate the world's latest and most efficient twin engine widebody airliner. The airline's first aircraft featuring the carrier's new livery has arrived at its home base in Hong Kong.

Cathay Pacific has configured its A350-900 with a premium three class layout with a total of 280 seats, comprising 38 in Business Class, convertible to fully lie-flat beds, 28 in Premium Economy and 214 in the main cabin. After an initial period flying on regional routes, Cathay Pacific's A350-900 will begin long haul operations later this year.

Altogether Cathay Pacific 48 A350 XWB on order, including 22 A350-900s and 26 of the larger A350-1000s.

The A350 XWB features the latest aerodynamic design, carbon fiber fuselage and wings, plus new fuel-efficient Rolls-Royce engines. Together, these latest technologies translate into unrivalled levels of operational efficiency, with a 25 per cent reduction in fuel burn and emissions, and

significantly lower maintenance costs. The spaciousness, quietness, beautiful interior and mood lighting in the cabin contribute to superior levels of comfort and well-being, setting new standards in terms of flight experience for all passengers.

To date, Airbus has recorded a total of 798 firm orders for the A350 XWB from 42 customers worldwide, already making it one of the most successful widebody aircraft ever.
