

CITATION LATITUDE HEADING TO AUSTRALIA FOR DEMONSTRATION TOUR

News / Manufacturer

Aeromil Pacific will officially launch the **Cessna Citation Latitude** in **Australia** at Sydney Airport on October 8 ahead of a **demonstration tour** around the country.

The nine-seat Citation Latitude achieved certification from the US Federal Aviation Administration (FAA) in June 2015, allowing first deliveries began in August.

The aircraft is powered by Pratt & Whitney PW306D1s and has a maximum range of 2,850nm.

Aeromil Pacific managing director Steve Padgett said the Citation Latitude was a “truly exciting new release from Cessna”, with the availability of onboard wireless internet in flight a big plus for business travellers.

“The new flat floor, stand up cabin provides a perfect solution for customers wanting a larger cabin experience in an aircraft with the range to cover the distances in Australia and beyond,” Padgett said in a statement.

Aeromil Pacific is Cessna’s authorised sales representative for the manufacturer’s Citation range of business jets and caravan turboprops, as well as single-engine range of aircraft, in Australia.

The [company was recently acquired by Hawker Pacific](#).

The launch of the Citation Latitude in Australia coincides with the Textron Aviation Customer Conference, which is being held in Sydney on October 8-9.
