

DEUTSCHE AIRCRAFT WELCOMES THE COMPLETE FLEET OF D328 TURBOPROPS FROM NL EASP AIR TO OBERPFAFFENHOFEN AIRPORT

News / Manufacturer

Deutsche Aircraft announced the arrival of NL EASP AIR complete fleet of D328 turboprop aircraft at its hangar at Oberpfaffenhofen Airport. NL EASP AIR specialises in providing global services for aerial maritime surveillance, coast guard operations, search and rescue missions, ISR operations and special mission charter support. Their fleet of special mission aircraft, equipped with advanced sensors and systems, plays a crucial role in fulfilling these critical tasks.

Nico Neumann, COO of Deutsche Aircraft, commented: "The high-quality support services provided by Deutsche Aircraft not only guarantees the excellent performance of the D328 but also ensures first-rate dispatch reliability in many commuter and charter operations across the globe. NL EASP AIR is one of the key operators benefitting from our proven customer and product support, which enables outstanding mission readiness in demanding, non-standard operations, such as border security, sea surveillance, air ambulance services and special mission roles."

Pieter Voeten, CEO of NL EASP AIR, said: "To carry out our critical tasks, NL EASP AIR relies on the D328® special mission turboprop aircraft which is equipped with advanced sensors and systems. The long-standing customer and product support provided by Deutsche Aircraft ensures the safe and cost-effective operation of the NL EASP AIR fleet."

Based at Schiphol International Airport (EHAM) and Den Helder Airport (EHKD), NL EASP AIR

has chosen Deutsche Aircraft as their trusted partner for maintenance and support services. The entire fleet of three D328 turboprops is undergoing maintenance at the Deutsche Aircraft hangar, providing an opportunity for the crew of both organisations to meet and strengthen their partnership.

As one of the key European operators of the D328, NL EASP AIR relies on the maintenance support of Deutsche Aircraft to ensure uninterrupted operations. NL EASP AIR's partners include prestigious organisations such as Frontex, ESA, the Indonesian Air Force and OEMs.

Deutsche Aircraft has also played a significant role in supporting NL EASP AIR's special mission operations by integrating the In-Flight Operable Door (IFOD) developed by AeroRescue, with EASA certification. This innovation allows the D328® to be used for various multi-role missions worldwide.

Deutsche Aircraft is proud to welcome NL EASP AIR's fleet of D328® aircraft to Oberpfaffenhofen and looks forward to continuing this partnership. The continued success of the D328® is attributed to the exceptional customer and product support provided by Deutsche Aircraft.
