

DIAMOND AIRCRAFT NAMED EXCLUSIVE CANADIAN DEALER - AVIATION UNLIMITED

News / Business aviation, Manufacturer

Diamond Aircraft announced a revitalized partnership with its long time sales representative in Canada, Aviation Unlimited. Since 1983 Aviation Unlimited has had a rich history as one of Canada's longest continuously operating general aviation companies. The company has been directly affiliated with Diamond Aircraft since 2004, and now most recently, Aviation Unlimited will fill the role as Canada's exclusive Diamond Aircraft dealer. A family owned business - specializing in high performance, technically advanced, owner-flown aircraft – Aviation Unlimited prides itself on its ability to work with clients over multiple aircraft transactions and multi decade relationships.

“Diamond Aircraft and the team in London, ON have always been close to our hearts” said Isaac Capua, Vice president of Aviation Unlimited, “We’ve witnessed the growth of what was once a small aircraft manufacturer in the 90’s into what today represents the highest quality product in the market. Diamond is unmatched in their product offerings: no other General Aviation manufacturer can offer the level of technology and sophistication to its customers – whether it be modern propulsion, exotic carbon fiber construction, or industry leading safety record. To say we are excited to showcase (yet again) what this amazing Canadian company can do is an understatement.”

“We are excited to work with Aviation Unlimited once again and continue to grow the Diamond family in Canada” said Scott McFadzean, CEO of Diamond Aircraft Industries Inc. “The team has a

proven history of strong sales for Diamond in the Canadian market and we are certain they will represent our brand to the highest possible standard.”

Aviation Unlimited has its main office at Oshawa airport and will be servicing the Canadian market from there. More information can be found on: www.aviationunlimited.com
