

ECODESIGN ON THE C SERIES WINS PRESTIGIOUS AWARD

News / Manufacturer

Receives award in Les Mercuriades' Stratégie de développement durable category

Bombardier's EcoDesign approach applied on the C Series has won the prestigious Les Mercuriades award in the "Stratégie de développement durable" category. The honour was presented at the Les Mercuriades Gala on Thursday, April 19 in front of close to 1,200 Montreal-area business leaders.

Les Mercuriades is one of the most prestigious business competitions in Québec, recognizing innovation, ambition, entrepreneurship and performance in small to medium enterprises and larger companies. Companies submit applications in 17 categories and all applicants are reviewed by an independent jury.

Our application focused on our EcoDesign approach when designing the C Series. Bombardier is the first and only manufacturer to have completed an environmental lifecycle approach on an entire aircraft.
