

EMBRAER DISPLAYS C-390, SUPER TUCANO, E195-E2 AND PRAETOR 600 AT DUBAI AIRSHOW

News / Manufacturer

Embraer will present its capabilities commercial and business aviation, defense and security, technology and innovation at the Dubai Airshow. Among the main highlights of the static exhibition will be the E-195-E2 commercial jet, which makes its public debut with an exciting new livery - the Tech Eagle livery, reflecting high-technology characteristics, excellent performance, efficiency, and low noise. Additional aircraft on display include the Praetor 600, the most technologically advanced executive jet in its category, the C-390 Millennium multi-mission military tactical transport aircraft and the A-29 Super Tucano training, aerial interception and surveillance aircraft.

Francisco Gomes Neto, President and CEO at Embraer, commented: “Our strong presence at the Dubai Airshow reflects the Middle East’s growing interest in Embraer’s products, services high-technology solutions. Our constant expansion in the region, as well as in other regions of the world, is a direct result of our increasingly competitive innovation and our ability to satisfy the most diverse customer needs.”

Company’ chalet will be at A38/A39 area of the biannual event, held at Al Maktoum International Airport. Eve Air Mobility will also display the full-size model of eVTOL vehicle cabin in the pavilion

dedicated to advanced air mobility. Eve will be offering visitors a virtual reality experience of the eVTOL cabin at booth #87.
